I, the undersigned hereby request temporary electrical power for the project as described above. I will maintain the electrical system or that portion of the building containing the system in a secured and locked manner or under constant supervision to exclude unauthorized personnel. All 120-volt single phase branch circuits shall have ground-fault interrupter protection from its point of origin, with the exception of lighting circuits protected from physical damage. I, do hereby, release and agree to indemnify, save and hold harmless the Town of Boone, its employees, and the Utility Company from any and all liability due to or arising from the Town of Boone Planning and Inspections Department causing the utility service to the above mentioned premises to be connected or disconnected. Temporary service is issued solely as a courtesy for the completion of construction/testing of the electrical, mechanical and plumbing systems and the building is not to be occupied until a Certificate of Occupancy is issued or unless agreed upon in writing by the inspector. Any violation of the above will automatically void temporary service. I, accept sole responsibility for safeguarding of persons and property from hazards arising from the use of electricity delivered by said utility. I, consent to all the provisions of Section 308.4 of the NC Administration and Enforcement Requirements Code and consent to allow all electrical power to be removed from this structure at the sole discretion of the authority having jurisdiction when the power is no longer consistent with the provisions of this application and Section 308.4. Structure Must Have Address Numbers On Building.
