

Commercial Assessment Program

The Town of Boone Water Department has started a program to provide free* water efficiency assessments to our commercial water consumers. These assessments, performed by volunteer retired engineers and public utilities personnel, are confidential and provide our customers with written recommendations on ways to use water more efficiently. When water is conserved, your facility costs are reduced.

The water assessment serves as an excellent tool for pinpointing areas where consumption can be reduced. We are pleased to offer you this customer service tool at no cost. *

For more information on how to schedule your free commercial efficiency Assessment contact:

**Carrie Phillips
Water Conservation Program Coordinator
321 East King Street
Boone, N.C. 28607
(828) 268-6250
carrie.phillips@townofboone.net**

***Depending on the size and scope of the assessment some charges may apply.**

Commercial Resources

Periodically the Town of Boone has water conservation education resources available for our commercial water users. *These resources are offered at no charge to our customers and, upon availability, may be picked up at the Public Utilities office at 321 E. King Street Boone, N.C. 28607.

These resources include, but are not limited to, laminated welcome letter from Mayor Brantz to our tourist, refrigerator magnets for apartments, laminated signs for restaurant preparation areas, Towel and linen reuse cards for hotel and motels, pens, pencils and balloons.

Call today and show your customers that you are a leader in conservation!
